PINIG

About PINIG

Established in 2013, Pinig Tech provides customized solutions deployed on tablets and other handheld gadgets. With 50+ years of cumulative experience in the technology, UI/UX (user interface / user experience) and content creation domains, the Pinig team has introduced customized tablets and cloud-based software solutions for individuals and businesses.

We are a team of professionals who are passionate about creating great stuff that people can use. This passion crystalized into our aspiration of creating kids tablets that aid learning and skill development through gamification. We also have exciting customized solutions for companies that help meet specific business objectives with greater ease.
